INITIAL

- I have read, and understood the MARS Information Package detailing health and behavior characteristics in the Akita breed. \_\_\_\_\_
- I will immediately join the MARS email group for a minimum of six months. \_\_\_\_\_
- I understand that MARS does not recommend that an Akita be adopted into a home where there are resident children less than 10 years of age. This recommendation is based on knowing that Akitas can severely injure small children under certain circumstances (Always keep in mind any breed of dog can perform very damaging bites, especially large breeds). \_\_\_\_\_
- I understand that Akitas are known to be aggressive to other dogs, especially dogs of the same sex, and is known to be aggressive to cats and other animals. \_\_\_\_\_
- I understand that Akitas display primitive canine behavior patterns at times. When given a harsh correction, the Akita may respond with aggression. \_\_\_\_\_
